New Product**

## ProTecta Reel Lubricant

**Makes All Other  
Reel Lubricants  
Obsolete!**

**“One of the finest  
Reel Lubricants ever made”**

- One Drop of ProTecta Reel Lubricant can withstand 80,000 pounds of pressure! So no matter how big the catch is, ProTecta will maintain a film of lubricant even under the most extreme pressure.
- If you are looking for incredibly smooth operation and great equipment life then look no further!
- The needle stick applicator allows you to place one drop exactly where you want it. No need to clean up the excess!
- With a temperature range from  $-50$  to  $+300$  °C you will get all season protection. No longer will your reel be sluggish on those cold winter mornings or weeping on a hot day in the tropics!
- You can use ProTecta Reel Lubricant with complete confidence as its advanced synthetic formula won't swell rubbers or cause plastics to perish
- It is light enough to use on bearings but also has an incredible desire to cling to metal making it suitable for gears and exterior components. One versatile product!
- In both salt and fresh water, ProTecta will resist wash off and facilitate corrosion prevention.
- Its handy size allows you to easily store it in your tackle box, even lying down, making it easy to access both when you are out fishing and at home.
- Don't just use it on your reels! It can also be used on your fishing pliers and knives and thousands of other uses around the shed and house.
- Don't short change yourself, use what the best reel repairers and tackle shops recommend; ProTecta Reel Lubricant!
