Sewing Machine Lubricant

**Makes All Other
Sewing Machine
Lubricants Obsolete!**

**“One of the Finest Sewing
Machine Lubricants
Ever Made”**

- One Drop of ProTecta Sewing Machine Lubricant can withstand 80,000 pounds of pressure! So no matter how long or hard you sew, ProTecta will maintain a film of lubricant even under the most extreme conditions.
- If you are looking for incredibly quiet and smooth operation and increased equipment life then look no further!
- ProTecta's handy needle stick applicator allows you to place one drop exactly where you want it. Great for hands that aren't as steady as they used to be and no need to clean up the excess!
- With a temperature range from -50 to $+300$ °C you will get all season protection. No longer will your machine be sluggish on those cold winter mornings or weeping lubricant on a hot day in the tropics!
- You can use ProTecta Sewing Machine Lubricant with complete confidence as its advanced synthetic formula won't swell plastics or cause rubbers to perish
- ProTecta is packed full of corrosion inhibitors to make sure that your machine is always in tip top shape.
- Its handy size makes it easy to store in your cabinet or take it with you in your toolbox when you are visiting friends..
- Don't just use it on you Sewing Machine! It also has thousands of other uses around the home.
- Don't short change yourself, use what the best sewers and machine repairers recommend; ProTecta Sewing Machine Lubricant!
