

TRAVEL BUDDY

12 V & 24 V Ovens **Hot food** on the go!

Fast Food takes on a new meaning with the Travel Buddy. These portable, lightweight, 12 & 24 volt ovens can cook, bake and warm foods while you travel.

Simply load the Travel Buddy up with pies, pasties, sausage rolls, pizzas, pre-prepared meals or even a roast! Plug into your car's cigarette lighter socket, set the timer and while you are driving or parked, your meal is being heated or cooked.

Travel Buddy's are designed and manufactured in Australia. They are fitted with a 2 hour timer to protect you from battery failure. Made from insulated stainless steel they are easy to use and clean. Because of their insulation they can be free standing or mounted.

Model	Specifications		Internal Dimensions		External Dimensions
